MAKO

Un nuovo concetto di eleganza. Il nuovo radiocomando GIBIDI per aprire le porte del vostro futuro.

Linee eleganti, pulsanti ergonomici e di facile utilizzo, LED di segnalazione ed aggancio per il portachiavi ricavato direttamente dall'anima realizzata in robusto alluminio pressofuso. Guscio prodotto con i più moderni tecnopolimeri ed al suo interno, tutta la tecnologia GIBIDI.

Elettronica innovativa realizzata con i più alti standard tecnologici per garantire, grazie al sistema HPA

(High Protection Algorithm), affidabilità, sicurezza e potenza del segnale, sempre!

Disponibile anche con elettronica MANAGER per una gestione degli accessi evoluta e non clonabile! MAKO con MANAGER, il binomio della sicurezza.

MAKO: il nuovo modo di servirsi della tecnologia più avanzata.

CREATIVE AUTOMATIONS

DOMINO

Domina ogni tipo di impianto con la facilità di un semplice gesto che tocca un oggetto di alto design.

DOMINO è facile da usare, grazie ai tasti ergonomici, piccolo (ma non troppo) e affidabile. Potrete agganciarlo al vostro portachiavi, oppure fissarlo in automobile utilizzando il sistema di fissaggio incluso nel blister.

Grazie ai simpatici accessori potrete personalizzare il vostro radiocomando con il colore che preferite, infatti le cover sono facilmente intercambiabili in pochi secondi.

DOMINO: il modo più moderno di servirsi della sicurezza più avanzata.

MANAGER

Il programmatore facile da usare che permette la gestione completa di tutti gli impianti realizzati con dispositivi della serie MANAGER.

La possibilità di gestione tramite PC ne rende l'utilizzo ancora più semplice e accattivante.

La soluzione offerta da GIBIDI a chiunque voglia rendere l'impianto di propria esclusiva pertinenza.

La programmazione dei dispositivi avviene in modalità WIRELESS.

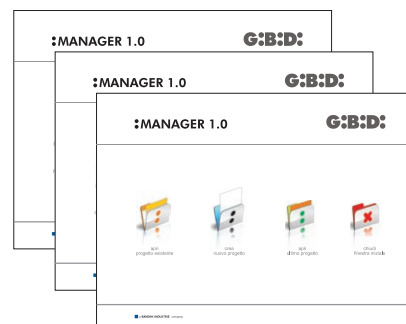

MANAGER consente di programmare dispositivi trasmettenti e riceventi sia a radiofrequenza che a transponder, gestendo modalità di funzionamento, personalizzazioni, autorizzazioni, modifiche ed anche l'innovativo sistema anti-clonazione sempre in modalità di sicurezza (ROLLING-CODE).

DSL

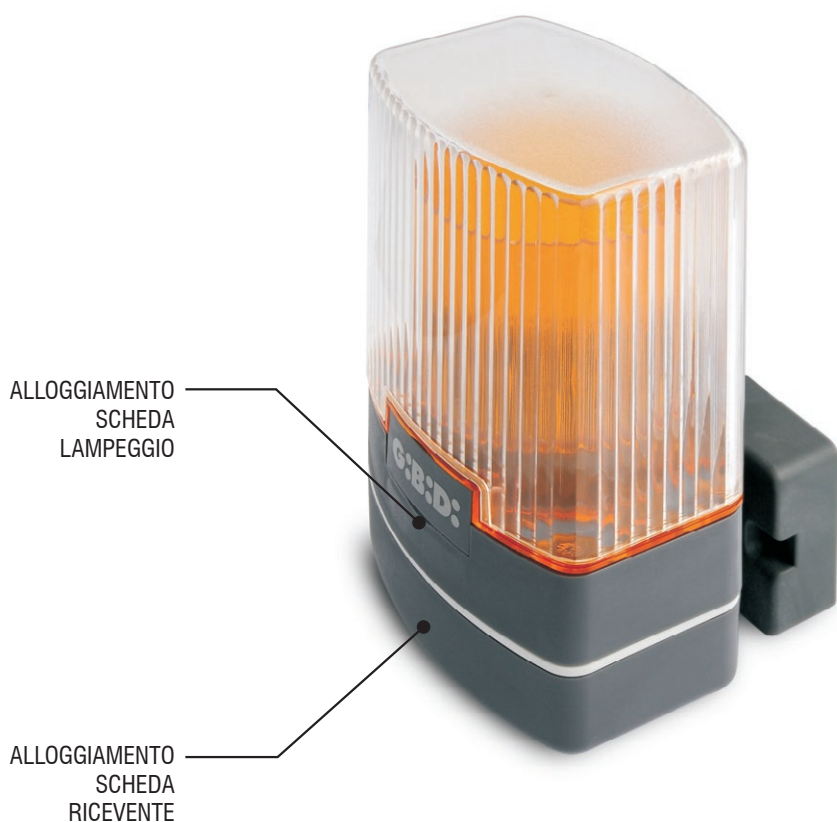

Ecco un altro tassello della piacevolezza moderna applicata, con intelligenza progettuale, ad un lampeggiante.

Grazie alla modularità ed estrema facilità d'installazione, la radio ricevente e l'antenna si integrano rapidamente in un solo prodotto.

Basterà scegliere il tipo di scheda di lampeggio per ottenere un prodotto completo.

Se decidi di utilizzare la radio ricevente al suo interno, la memorizzazione dei trasmettitori sarà facilitata dai comandi posizionati direttamente sul contenitore.

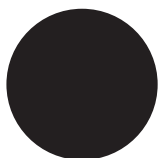

DSL: il nuovo segno distintivo del vostro cancello automatico.
